

## LEAN Principles

The LEAN a philosophy focuses on the continuous elimination of waste or non-value-added elements from processes to give customers the best possible product / service with the least amount of waste.

This concept can be applied with organisational teams who have direct contact with external customers as well as teams working to provide increased value for internal customers.

This 2-day intensive course introduces LEAN principles, process mapping, visual management and LEAN problem solving.

### Target Audience

This course is suitable to all organisational levels in all industries.

This course can be packaged with our **Applied Change Management** workshop which explores processes and systems for managing an organisational change initiative.

**Duration** 1 day (9am – 4pm)

**Investment** \$895 per person

## Workshop Outcomes

- Introduction to LEAN
- Process mapping
- Value analysis and mapping
- Communication mapping
- 5S training
- Voice of the Customer
- Waste Identification (TIMWOODS) and reduction
- Continuous improvement fundamentals, implementation and continuance.

## Facilitated by:

### Anton Klekar
